

NATURAL CLIMBERS Log Balance Beam

NAT-000092

- Sealed and treated for water resistance
- Combined with other climbing components to create unique layouts
- Sanded cedar logs

The perfect way to navigate across alligator-infested waters, remain suspended over bubbling hot lava, or climb across pools of quick-sand, the log balance beam builds core body strength while improving balance and hand-eye coordination. Risk-taking, exploration, and imagination know no limits with the log balance beam. The log balance beam can also act as an extra seating option to any outdoor classroom. Combined with our Outdoor Classroom Bench, you can create the perfect outdoor learning area.
