

# NATURAL CLIMBERS Log Crossing

NAT-000043

- Sealed and treated for water resistance
- Built to meet CSA standards
- Combined with other climbing components to create unique layouts
- Sanded cedar logs
- Ropes are made from high-quality playground materials

The perfect way to navigate across alligator-infested waters, remain suspended over bubbling hot lava, or climb across pools of quick-sand, the log rope crossing builds upper, lower, and core body strength while improving balance and bilateral/hand-eye coordination. Risk-taking, exploration, and imagination know no limits with the log rope crossing. Every little Indiana Jones needs a log rope crossing to successfully complete their mission! Add the log rope crossing to your playground today and watch the adventure unfold.
