

NATURAL CLIMBERS Log Stilts

NAT-000040 • NAT-000041 • NAT-000042

- Available in three different variations: single, double or triple log step
- Sealed and treated for water resistance
- Vertical play opportunities
- Different arrangement to suit site limitations

Whether climbing through mountains or swinging through trees, the log stilts, available in single, double or triple step variations, act as the perfect starting point for vertical play. Units are sealed and treated for water resistance. The stilts sharpen children's attention and provide an outlet for role-playing and exploration. Parallel, joint, or cooperative play are imperative to a successful climb; the log stilts allow children to polish these skills while scaling great heights for maximum adventure.

Motor Skills

- Upper Body Strength
- Lower Body Strength
- Core Strength
- Balance
- Coordination
- Hand-Eye Coordination
- Bilateral Coordination

Cognitive

- Attention
