IMAGINATIVE PLAY
Log Water Drop
NAT-000052

MADE IN · FABRIQUÉ AU CANADA
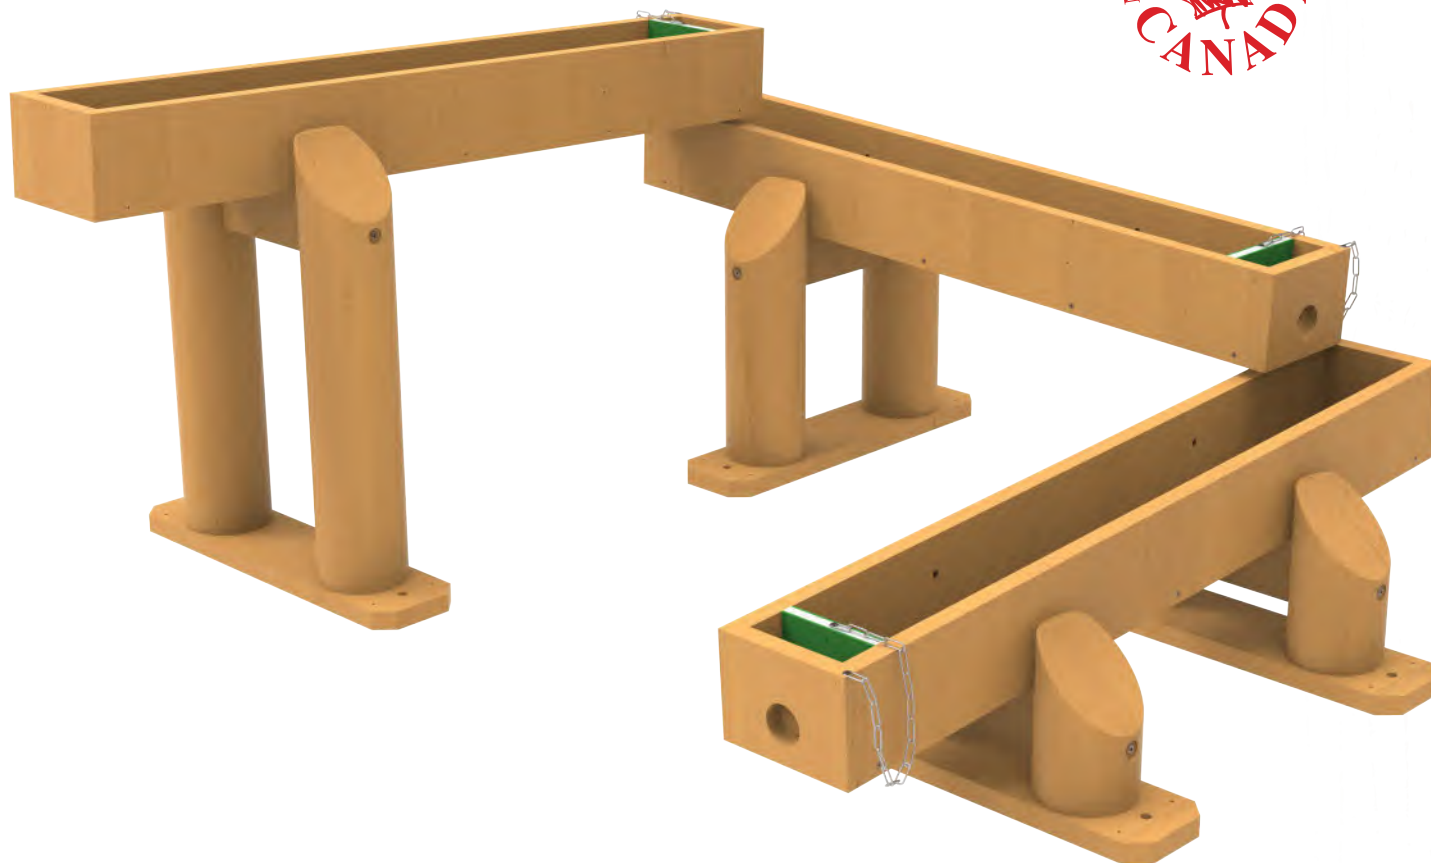

The log water drop adds extra excitement to any playground. Demonstrate water flow, gravity, and currents with this easy to move unit. Constructed at three different heights, multiple configurations are possible with configurations to suit any site. Water blocks are included in each trough to demonstrate water stoppage and damming, and as a result, learning opportunities are overflowing. Problem-solving, focus, attention, and comprehension are all on full display while children discover the joy of flowing water and all it has to offer.
