PLAY PANELS

Designed for the creative mind, APE's line of natural play panels provide an outlet for creativity across various mediums. Chalk, paint, weave, or music panels can be incorporated into fencing, wall mounted, or freestanding. Double-sided, durable, and offered in various sizes and heights, play panels appeal to the artistic sensibilities of adventurous and reserved children alike.

Play Tables

Whether baking mud pies in the mud kitchen, building villages at the play table, or experimenting with various natural elements at the sensory table, play tables increase playability in any space. Available in infant and toddler heights, play tables offer easy installation, durability, and 360-degree play. With replacement parts available, children will be experimenting with natural play tables for years to come.

Climbers

Natural climbers provide the vertical playability popularized in traditional equipment in a natural aesthetic. Climbers allow children to build strength, endurance, and balance utilizing natural materials. Sealed for water resistance and constructed to meet CSA standards, climbers safely add an element of risk to play spaces while maintaining the integrity of a natural landscape.

IMAGINATIVE PLAY

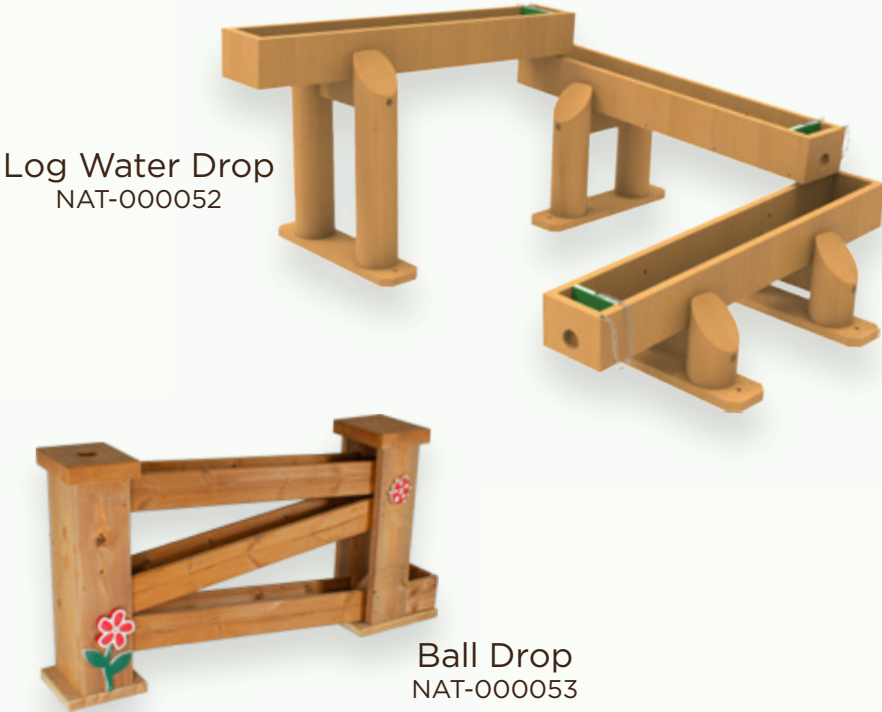

Hand-carved natural imaginative play elements offer interest to playgrounds while providing a unique outlet for imagination. Whether selecting animal, vehicle, tunnel, theater or water/ball drop options, imaginative play elements are sealed and treated for water resistance. These elements add visual interest and playability to play spaces and are a popular choice for daycare centers and toddler yards.

Site Furnishings

A charming yet practical way to add visual interest and useability to a space, site furnishings offer various ways to add seating throughout playgrounds while preserving the integrity of a natural design. From rustic log benches, arch bridges, planter boxes, or log tables, site furnishings are a simple way to turn dead space into a quaint area for children to catch their breath.
